

Sustainability Development Model 2023-27

Geoff Chatwood

Vice Principal: Students & Environments

13th October 2023

**INSPIRE.
CHALLENGE.
EMPOWER.**

Why is sustainability important?

- A responsibility to future generations;
- A history of environmental responsibility engagement;
- Increasing costs of resources;
- 459 staff, over 2000 individuals on academic/vocational courses and around 400 other students;
- Significant potential impact of awareness/action/education;
- Compliance.

INSPIRE. CHALLENGE. EMPOWER.

UCM 

Where you we today?

Our research:

What your stakeholders think:

INSPIRE. CHALLENGE. EMPOWER.

DID YOU KNOW?

 **210** EACH YEAR WE USE THE SAME AMOUNT OF ELECTRICITY AS 210 HOMES!

IN THE LAST ACADEMIC YEAR, WE USED THE EQUIVALENT OF 9 TREES IN OUR A4 SIZE PRINTERS /PHOTOCOPIERS!

LAST YEAR WE PRODUCED ENOUGH UN-COMPACTED GENERAL WASTE TO FILL THE 8-LANE SWIMMING POOL AT THE NSC!

8%

14%

25%

IN #2 WE RECYCLE 8% OF CANS, 14% OF PLASTIC BOTTLES AND 25% OF GLASS BOTTLES SOLD.

Student Voice May 2023:

Over 30% response rate of Full-time students*

Sustainability

INSPIRE. CHALLENGE. EMPOWER.

Staff Survey: 15% ~

From your perspective, which areas should UCM focus on in its attempt to be more sustainable?

- Waste: reducing waste, increasing recycling, and purchasing environmentally-responsible products
- Energy: conserving energy, making buildings more energy efficient, and generating energy from renewable sources (e.g. wind or solar)
- Food: making healthy and sustainable food options more available
- Water: conserving water and/or capturing rainwater and runoff
- Transportation: providing more transportation choices to limit the need to use a personal vehicle
- Wellness: supporting UCM staff and students to meet the challenges they face and supporting their strengths so they feel a part of the community, and are connected to their natural surroundings.
- Greenhouse gases: reducing greenhouse gas emissions
- Engagement: building the capacity of employees and students to make sustainable changes in their lives and at work
- Diversity: ensuring that a variety of individuals are invited to the table to share multiple backgrounds, perspectives, and priorities during the creation of sustainable solutions at UCM
- Climate resiliency: assessing the risks posed by climate change to UCM, understanding climate change's impacts on life and infrastructure such as extreme weather events, and flooding and developing a plan to address the risks identified

INSPIRE. CHALLENGE. EMPOWER.

“Our Journey So Far”

- Pre 2020: Environmental Group
- 2021 AoC Green College Commitment
- 2022: UCM’s Sustainability Ideas Storming exercise
 - Sustainability Group formed – access to limited student & staff voice
 - The first draft of the Sustainability Development Model
 - Feedback on the proposal from Managers
 - Second Draft
 - Feedback from Governors

INSPIRE. CHALLENGE. EMPOWER.

- 2023: Third draft
 - Feedback from the Sustainability Group
 - Feedback from Managers
 - Feedback from Governors
 - Feedback surveys from students and staff
 - Working documents produced
 - Soft internal launch with inaugural meetings with some key theme groups in June/July
 - Official launch October 2023.

INSPIRE. CHALLENGE. EMPOWER.

Strategic Statement

Sustainable development means that when meeting the needs of the present, we do not compromise the ability of future generations to meet their own needs;

Being sustainable is about everything we do –

We want to reduce our carbon footprint, use resources carefully, reuse and recycle.

INSPIRE. CHALLENGE. EMPOWER.

UCM 

We aim to:

- operate facilities and carry out activities with minimum impact on the environment;
- empower students and staff to be sustainable in their careers and lives;
- contribute to knowledge transfer and research that assists our Island to be sustainable.

We will ask when making any decision:

1. Can we do this more sustainably?
2. What can we do to make this activity more sustainably positive?

INSPIRE. CHALLENGE. EMPOWER.

Key Drivers:

- Isle of Man Climate Change Act 2021
- Climate Change (Public Bodies Reporting Requirements) Regulations 2022
- Climate Change (Single Use Plastic) Regulations 2022
- The Isle of Man: Our Island Plan 2023
- Isle of Man Climate Change Plan 2022-27
- Isle of Man Economic Strategy 2022-32
- UNESCO Biosphere Isle of Man's Vision and Strategy, 2021-2026
- DESC Strategic Plan 2021-26
- UCM Strategic Plan 2023-27; and

INSPIRE. CHALLENGE. EMPOWER.

SUSTAINABLE DEVELOPMENT GOALS

• Direct impact:

• Will lead towards:

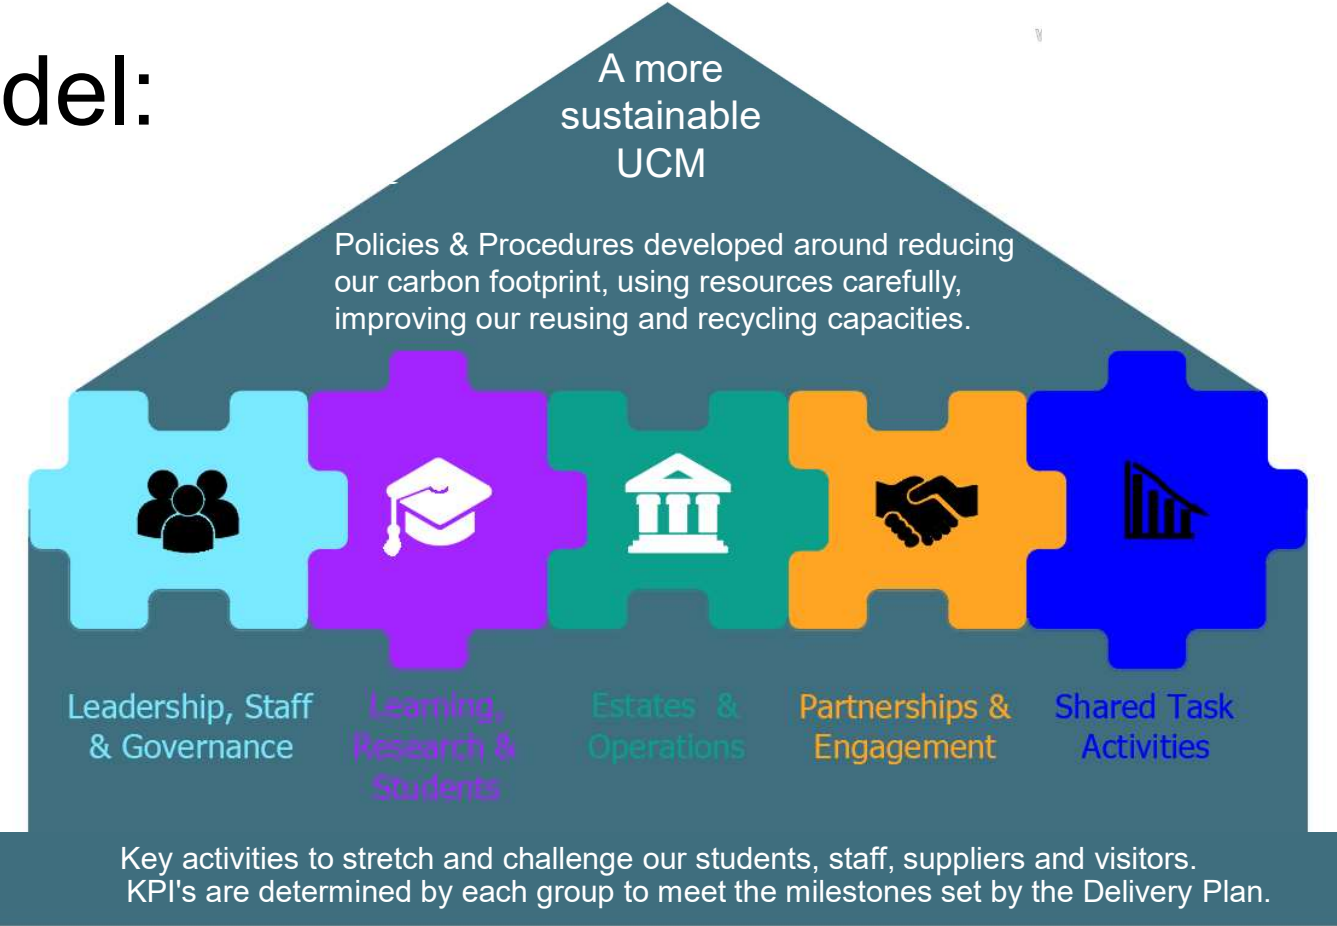

• Innovation to foster:

INSPIRE. CHALLENGE. EMPOWER.

Our Model:

INSPIRE. CHALLENGE. EMPOWER.

Our Model's Key Themes in detail (1)

Leadership, Staff
& Governance

Leadership, Staff and Governance:

Responsibility for: the sustainability development model, delivery plan, key performance indicators, monitoring & compliance, external reporting and emerging issues, providing support for the key theme groups and providing resources.

Communicating any items that are deemed as noteworthy by each workgroup and coordinating this via UCM's Marketing Team. **Enables**

Learning, Research
& Students

Learning, Research and Students:

Responsibility for: Embedding sustainability and enabling students and staff to contribute towards sustainability. Through education/training for staff CPD and student activities/programmes/tutorials. Engaging students and staff in research projects that complement the sustainability development model. **Empowers**

INSPIRE. CHALLENGE. EMPOWER.

UCM 

Our Model's Key Themes in detail (2)

Estates &
Operations

Estates & Operations:

Responsibility for: A sustainability-resistant college, through identifying UCM's carbon footprint and identifying emissions and developing waste reduction strategies.

Evolves

Partnerships &
Engagement

Partnerships and Engagement:

Responsibility for: Developing, fostering and promoting a culture of sustainability internally and externally. Interfacing with the local community, public and businesses, establishing links with contractors/suppliers that promote sustainability through their activities and communicating UCM's sustainability development model.

Encourages

INSPIRE. CHALLENGE. EMPOWER.

Our Model's Key Themes in detail (3)

Shared Task
Activities

Shared Team Activities:

Responsibility for: Contributing towards the data collection activities across the sustainability development model. Through the collaboration between the heads of each key theme and preparing standardised reporting methods for the workgroups. Provides a framework that examines UCM's progress through the model's life cycle.

Last update – 2nd October 2023

Priority: Low/Medium/High
Status: Not Started/Started/Complete
Progress: 0% to 100%

Theme: Leadership, Staff and Governance

Lead – Geoff Chatwood

Section One: Key Theme Activities (Fixed Format):

Activity	Description	Priority	Status	Progress	Started	Completed	Remarks
LSG01	Gather College views on sustainability	H	S	80%	02/11/22		
LSG02	Establish Sustainability Workgroups	H	S	50%	15/03/23		
LSG03	Hold workshop(s) with leaders to set sustainability targets and sustainability ambitions						
LSG04	Incorporate ambitions in UCM's sustainability development model, establish a ring-fenced budget and KPIs	H	S	50%	28/08/23		
LSG05	Develop a climate adaptation/climate risk management approach						
LSG06	Embed climate responsibility into staff development	H	S	30%	3/06/23		
LSG07	Incorporate monitoring & compliance and share information internally and externally						
STA01	Measure college carbon footprint using existing data	H	S	20%	22/09/23		
STA04	Align with the UN's Sustainability Development Goals						
STA05	Report Key Performance Indicators for sustainability						

INSPIRE. CHALLENGE. EMPOWER.

The group will have autonomy on how to achieve their key activities:

Section Two: How to get there (Open Format):

LSG 01 – Gather views on sustainability

Ref:	Task	Responsible	Priority	Status	Start	End	Remarks
1.01	Determine multiple ways of measuring students' and staff's views of sustainability.	Group	H	100%	2/11/22	12/01/23	
1.02	Establish some "Killer facts"	GC & RK	H	100%	2/11/22	29/03/23	Shared with Marketing
1.03	Development of questionnaires	MD & <u>Group</u>	H	100%	21/01/23	29/03/23	Shared with Group
1.04	Promotion of surveys	RL	H	100%	29/03/23	24/04/23	
1.05	Data analysis	GC & MD & JR	H	100%	19/05/23	3/07/23	
1.06	Reporting of data	GC & RL	H	100%	4/07/03	18/09/23	For launch date

INSPIRE. CHALLENGE. EMPOWER.

United Nations Sustainability Development Goals Guidance

Example:

3: Good Health & Wellbeing

Focus: Research on the key conditions and diseases that have a disproportionate impact on health outcomes across the world. UCM's support for healthcare professions and the health of students and staff.

Education:

Health & wellbeing related programmes
Tutorials which include sex and mental health to support students and staff (where appropriate)

Policy:

Student health & wellbeing
Policies that promote wellbeing such as anti-bullying and harassment, smoke-free, etc.

Relationships:

Access to sexual and reproductive healthcare services for students
Access to mental health support for students and staff
Access to sports facilities
Collaborate with organisations/health institutions to improve health and well-being

Research: Any UCM-published research paper that could cover this SDG?

Metrics/KPIs:

Data that shows participation in any number of education initiatives.
Monitoring all wellbeing activities, participation levels and outcomes.
Summary reports on collaborative programmes, including the range/amount of support given.

Case studies:

INSPIRE. CHALLENGE. EMPOWER.

Monitoring & Reporting

- SLT will monitor the progress of the sustainability development model and provide feedback to the work groups;
- UCM will complete reports required by DESC and/or the Climate Change Act;
- SLT will review the progress and provide an annual report to our Board of Governors;
- Media releases throughout the Model's lifespan.

Progress to date:

- Model introduced
- Key theme groups are now operational and action plans updated
- Initial measuring of stakeholders' views
- Carbon Literacy training
- Identification and measurement of some areas of consumption/recycling
- Development of student tutorials and curriculum
- Increased use of digital assessment and teaching
- Engagement of sustainable practices within the curriculum

“A more sustainable UCM that contributes to the Island’s climate change initiatives.”

Any Questions?
