

2018 / 2019

Course Code	PD880-SS
Tutor	Clare Pettit
Venue	UCM, Homefield Road, Douglas
Cost	£37
Start Day, Date & Time	Saturday 9 th February 2019 9.30am – 12.30pm
Number of Weeks / Sessions	2 Weeks

What is the course about?

Learn the basic functions on your android tablet. Course looks at how to set them up, what you can use them for and how to keep your data safe. Please note that if there is anything specific that you want to be covered you should indicate this when you enrol as this is not a 'troubleshooting' course. Some tablets will be available at the session for students use, however students can choose to bring along their own. Students who intend bringing their own tablet along, are requested to advise the College on 648204, which type of tablet they are bringing so that accurate information will be available on the day.

Previous experience:

No previous experience necessary.

Equipment you need to bring:

None required but if you have a tablet you can use to learn on, that would be an advantage.

General Information:

The times advertised for courses, especially 1-day and short courses, will normally include break(s) and a lunch period, as appropriate, and by agreement with the tutor at the sessions.

Students attending one-day workshops might like to note that there are hot/cold drinks and snack vending machines (crisps, sweets, chocolate, biscuits etc) in the College Refectory, which will be open during the day, but there are no sandwiches etc available, so students might like to bring a packed lunch with them, which can be consumed in the Refectory.

Some venues may have restricted parking facilities, disc parking etc, so please also be aware of this.

Who should I contact?

For further information, please contact the Programme Area Secretary on 648204.
