What is the course about?

Learn how to decorate individual cupcakes with fondant icing and buttercream. Make edible decorations using piping skills.

Previous experience:

No previous experience is required. Everybody welcome.

Equipment you need to bring:

An apron

Large plastic icing bags - Lakeland do them or I think Butlers Choice may do some similar!

A packet of white squires kitchen flower paste.

Frosting knife

Tylo powder (this can be bought from the likes of Amazon)

Paint brushes

A variety of food colours not liquid or powder, the gel types are better.

12 good quality cupcakes not fairy cakes, and a box to take them home in.

Buttercream - a rough guide would be 110g of butter to 500g icing sugar with a good splash of vanilla extract. Preferably made the day before and left overnight to chill in a fridge.

Fondant icing

Edible glue

Icing sugar

And a Wilton 2d piping nozzle, you might also like to try an open star, closed star, round or French/fine star, again, up to you which you prefer.

Please feel free to bring with you sprinkles, glitters and lustres to add finishing touches to your cakes.

General Information:

The times advertised for courses, especially 1-day and short courses, will normally include break(s) and a lunch period, as appropriate, and by agreement with the tutor at the sessions.

Students attending one-day workshops might like to note that there are hot/cold drinks and snack vending machines (crisps, sweets, chocolate, biscuits etc) in the College Refectory, which will be open during the day, but there are no sandwiches etc available, so students might like to bring a packed lunch with them, which can be consumed in the Refectory.

Some venues may have restricted parking facilities, disc parking etc, so please also be aware of this.
