What is the course about?

Advice and guidance to enable the Student to improve their techniques of, painting and design and the opportunity to work in more than one medium, but with Water Colour as a base, also to develop individual skills and style. The course includes more advanced techniques.

Painting is not easy, but it should be fun. My aim is to help with some of the more common problems and show some of the techniques I have gained over the years.

General Information:

The times advertised for courses, especially 1-day and short courses, will normally include break(s) and a lunch period, as appropriate, and by agreement with the tutor at the sessions.

Students attending one-day workshops might like to note that there are hot/cold drinks and snack vending machines (crisps, sweets, chocolate, biscuits etc) in the College Refectory, which will be open during the day, but there are no sandwiches etc available, so students might like to bring a packed lunch with them, which can be consumed in the Refectory.

Some venues may have restricted parking facilities, disc parking etc, so please also be aware of this.
