

# YOU SAID, WE DID!

THANK YOU FOR GETTING INVOLVED WITH OUR FUTURE CURRICULUM PLANNING EVENT ON 25 NOVEMBER 2022. SINCE THEN WE HAVE BEEN REVIEWING THE FEEDBACK AND MAKING CHANGES WHERE WE CAN.

You said that the Island will see growth in the Science, Digital and Health & Care sectors

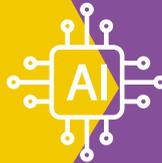

We are exploring a Science Apprenticeship in the form of HNC Science (we have met with two employers and are reaching out to more), working with DfE on their Digital Academy project and asking employer groups about their Health & Social Care needs through workshops.

You identified key skills/knowledge for future employees including critical thinking, emotional intelligence, sustainability, teamwork and timekeeping.

We have refreshed our pastoral tutorial system to include five new tutorials.

You said employees need to understand IoT and AI.

We have a UCM working party meeting to look at our role in digital developments, but specifically AI. UCM has three IoT projects currently undertaken by students; one is concerned with the availability of disabled parking spaces at UCM, another looks at the amount of CO<sub>2</sub> in classrooms.

You told us that Leadership and Management was one of the top three skills each sector needs.

We are offering a Level 5 Qualification in Leadership and Management from October 2023.

You told us that Literacy and Numeracy was one of the top three skills each sector needs.

We are continuing to provide free Maths and English courses.

You said Green Technology and Sustainability were two of the most important future skills requirements for the Isle of Man in the next 5-10 years.

We have developed a whole-college approach to sustainability which involves staff, students, our operations and, importantly, is embedded in all our courses; we'll be launching our sustainability strategy in October along with the six working parties to ensure we're meeting our objectives.

You told us that Flexible Learning, a Flexible Curriculum and more Apprenticeships are the best modes of delivery for you.

We are investing in an online learning platform to complement our existing provision.

IN SEPTEMBER WE'RE LAUNCHING OUR ADULT LEARNING PROVISION WHICH INCLUDES UPSKILLING, CPD AND BITESIZE LEARNING FOR ALL SECTORS. WE'RE ALSO ABLE TO OFFER BESPOKE COURSES TO SUIT INDIVIDUAL BUSINESS NEEDS. REGISTER TO ATTEND THE LAUNCH BY EMAILING [MARKETING@UCM.AC.IM](mailto:MARKETING@UCM.AC.IM).
