

SPONSORSHIP OPPORTUNITIES

THE RESEARCH FESTIVAL 2027

WHAT IS THE RESEARCH FESTIVAL?

The annual UCM Research Festival is a truly unique event, bringing together industry, researchers and students who are conducting research on or about the Island. The aim is to promote research that can inform the security, vibrancy and sustainability of our Island.

For 2027 UCM is again partnering with UNESCO Biosphere Isle of Man (BIOM) with a range of presentations that can contribute and illuminate the Island's ability to be a Biosphere Nation. The popular BIOM Annual Lecture will be the Festival's Keynote address.

As well as attracting local presenters, the event has welcomed international researchers and academics to present fascinating research which impacts on our Island, community and economy.

The event is a melting pot of ideas and networking where some fantastic collaborations have begun.

- 250+ delegates
- 14 – 20 speakers
- Media, digital and PR package to promote the event
